

INDEX

1.	Introduction.....	1
	1.1 Cardiorenal Syndrome (CSR).....	1
	1.1.1 Cardiorenal Syndrome subtype.....	2
	1.2 Blood property and Ultrafiltration technique.....	9
	1.2.1 What is blood and what constitutes.....	9
	1.2.2 Erythrocyte deformability.....	12
	1.2.3 What is hematocrit.....	13
	1.2.3.1 Hematocrit:an important index in ultrafiltration therapy..	15
	1.2.4 Blood Ultrafiltration.....	16
2.	Rational.....	21
3.	Method and materials.....	23
	3.1 Hematocrit measurement and wavelength determination.....	23
	3.2 Calibration protocol.....	25
	3.3 Calibration algorithm.....	30
	3.3.1 Serial sniffer data processing.....	30
	3.3.2 Data regression.....	35
	3.3.2.1 Exponential regression.....	35
	3.3.2.2 Polynomial regression.....	36
	3.3.2.3 Segmented regression.....	37
	3.3.2.4 Coefficient of determination.....	38
	3.3.3 Normalization.....	40
	3.3.4 As the pump flow affect the reading of hematocrit.....	43
4.	Results.....	47
	4.1 Calibration algorithm.....	47
	4.2 Data regression and normalization.....	58
	4.3 Hematocrit valuation during pump flow variation.....	63
5.	Discussion.....	71
6.	Conclusion and future perspective.....	75

7.	Appendix: listed.....	77
8.	Bibliography.....	87
